Comments from Kathryn Janoff

General Discussion Questions:

RSEJ Element

Has there been outreach to RSJ coalition for review and comment?

First page: Still not entirely comfortable with “places and people of privilege” because it is a mixed message to compliment and admonish at the same time.

RSEJ Element minor edits

P. 2-4

Intro, last sentence, replace “goals” to take action with “objective”

Goal 1: add “employees”

1.3: add: “. . . while identifying and eliminating”

1.4: change which to that

2.1: change both to that

P. 2-5

2.5: delete innovation

Goal 3: replace: “socially disadvantaged” with “any”

Policy 3.1: If not already in LUE, this should be included in the land use element

P. 2-6

3.2: hyphenate project-specific

3.4: seems to fit better under Goal 2

4.2: if this is a land use policy, make sure it’s also in the LUE. Add comma following i.e.,

4.5: wording is still grammatically problematic.

Try: “assistance to the homeless and access to . . .”

P. 2-8

6.4: delete “in the Town”

6.5: typo specifically

IP K: Awkward phrasing. Try stating the purpose first: “To remove barriers and increase access to healthy foods, conduct . . .”
